<b>Total Cost 5th Year:</b>	<b>\$5,643.48</b>	<b>\$3,241.52</b>	<b>+\$2,401.96</b>

Disclaimer: Pump purchase price is indicative only and reflects manufacturers RRP as at August 2022. Energy cost calculations are based on a 50,000 litre pool and a pump running time of 8 hours per day with an electricity pricing of 30 cents per KW. The CTX 280 (1HP) pool pump would run at high speed (it's only available setting) for 8 hours; the XT P320 would run at eco (low) speed, medium speed and high speed at 6, 1 and 1 hours per day respectively.
